Product number: CS00001BKPL

Description

Discover the ultimate protection for your valuable camera equipment and drone! Dive into the world of carefree adventures with our waterproof outdoor case, specially designed for photographers and drone pilots. This robust case not only offers maximum protection against water, dust and shocks, but also allows you to transport your valuable equipment in an organized and safe way. The waterproof outdoor case with flexibly adjustable padding is the best companion for anyone who loves and values their equipment. Experience adventure without compromise - your high-quality technical equipment deserves the best protection: get ready for unforgettable journeys and breathtaking shots!

- **MEDIUM DIMENSIONS:** The YPC Explorer Case M comes in a medium size of 40cm width, 33cm depth and 16.5cm height. The internal dimensions are 37cm in width, 26.3cm in depth and 15cm in height.
- **WATERPROOF AND SHOCKPROOF:** Whether you're walking through rain, snow or harsh landscapes, this case will keep your gear safe and dry. Suitable for extreme temperatures from -29°C to 60°C.
- **ALWAYS WELL SORTED:** The removable dividers are perfect for sorting your equipment. Everything stays in place without slipping - and without the need for tools.
- **HIGH QUALITY MATERIAL:** Made from durable and lightweight material, this case is ideal for outdoor use. The robust fasteners ensure that nothing is left to chance.
- **VERSATILE USE:** Not just for equipment and technology - this case is also ideal for other sensitive equipment or valuable weapons and items that require protection.
- **SECURITY WITH STYLE:** In addition to two metal-reinforced eyelets for padlocks, the pressure relief valve ensures security during air transportation to your adventure. With this case, you combine functionality with a robust design. Your equipment deserves the best protection - and looks really good too!
