€69.90

Prices incl. VAT plus shipping costs

Product number: BG01003BKBK

Description

Our "Voyager" model can be described as the space saver among bicycle bags. The complete system consists of three individual pockets (2 x side pockets, 1 x rucksack), which can be easily attached to each other with a snap lock for attachment to the luggage rack. Of course, each bag can also be used and attached on its own, which further multiplies the possible uses. The Voyager is made of fully rubberized, waterproof material and is designed for continuous use in heavy rain and, with its volume of approx. 65 liters, offers enough storage space for tours lasting several days, even through difficult terrain.

- Waterproof outdoor bicycle bag
- 3 in 1 system backpack & side bags
- 7 zip pockets
- Ideal for bike tours in the rain

amb products assembly with click system
