Description

Your equipment and food should stay dry even on long biking tours, so the "Traveler" bike bag offers plenty of storage space and is completely waterproof thanks to the rubberized material. The attachment to the luggage rack is extremely stable and yet child's play with the click system. To release, simply pull the pull rope over the handle and the lock releases immediately. A shoulder strap can be attached when out and about on foot, which means that this outdoor bag can be used universally.
