Product number: CS00003BKPD

Description

Discover the ultimate protection for your valuable camera equipment and drone! Dive into the world of carefree adventures with our waterproof outdoor case, specially designed for photographers and drone pilots. This robust case not only offers maximum protection against water, dust and shocks, but also allows you to transport your valuable equipment in an organized and safe way. The waterproof outdoor case with flexibly adjustable padding is the best companion for anyone who loves and values their equipment. Transport even heavy equipment comfortably over longer distances thanks to the practical trolley function. Experience adventure without compromise - your high-quality technical equipment deserves the best protection: get ready for unforgettable journeys and breathtaking shots!

- **XXL DIMENSIONS:** The YPC Explorer Case XXL comes in extra large dimensions of 53cm width, 40cm depth and 28.5cm height. The internal dimensions are 46.3cm in width, 33.8cm in depth and 21.5cm in height.
- **WATERPROOF AND SHOCKPROOF:** Whether you're walking through rain, snow or harsh landscapes, this case will keep your gear safe and dry. Suitable for extreme temperatures from -29°C to 60°C.
- **INDIVIDUALLY ADAPTABLE:** The Velcro padded dividers are perfect for cameras and drones, as you can adapt them to the shape of your equipment. This means everything stays in place without slipping - and without the need for tools.
- **HIGH QUALITY MATERIAL:** Made from durable and lightweight material, this case is ideal for outdoor use. The robust fasteners ensure that nothing is left to chance.
- **VERSATILE USE:** Not just for cameras and drones - this case is also ideal for other sensitive equipment or weapons and items that need protection.

- **SECURITY WITH STYLE:** In addition to two metal-reinforced eyelets for padlocks, the pressure relief valve offers security during air transportation to your adventure. With this case, you combine functionality with a robust design. Your equipment deserves the best protection - and looks really good too!

- **TROLLEY FUNCTION:** Transport even heavy equipment over long distances with the practical trolley function. An extendable handle up to a height of 92 cm and the large 5.5 cm wheels ensure comfortable transportation.
