€49.90

Prices incl. VAT plus shipping costs

Product number: BG00002BKBK

Description

The large "Operator" tool bag is the ideal companion for every machine operator, maintenance and service technician. Thanks to the large number of tool holders and inside pockets, tools, laptops, writing utensils and work materials can be safely stowed away and transported to the workplace. This practical shoulder bag is made of tear-resistant, water-repellent Oxford 600D fabric and is indestructible in daily use. The 38x28x11cm main compartment has eleven holders for screwdrivers and five inside pockets. The front and rear pockets can be opened completely and together offer another twelve inside pockets and nine screwdriver slots. There are two additional patch pockets on the side of this shoulder bag.

Water-repellent, sturdy material

- XL dimensions 40x32x20cm
- Shoulder strap with padding and carrying strap
- Large number of inside pockets and holders
- Front and back can be opened for quick access
