€24.51

Prices incl. VAT plus shipping costs

Product number: BG00009BKGY

Description

This open "Henchman" tool bag is made of tear-resistant, water-repellent Oxford 600D fabric and has many tool holders and patch pockets for quick access to tools and work materials in daily use during installation on the construction site or in the maintenance and service area.

On the outside there are nine open and three closed pockets for wrenches, bit sets, tape measures, pliers or other tools. On the inside there are ten screwdriver loops and two large slide-in pockets as well as the large 22x20x20cm pocket for materials. The bag can be easily transported using the carrying handle or padded shoulder strap.

- Water-repellent, sturdy material
- Ideal for tools and building materials
- L Dimensions 46x23x23cm
- Sturdy base, secure against puncturing
- Twelve outer pockets and three inner pockets
- Shoulder strap with padding and plastic handle
- Tear-resistant, reinforced seams
